

7 in 1 Glowskin O+ Carbon Oxygen
Facial Care Machine

WHAT IS A HYDRAFACIAL?

An important step in any effective skincare treatment involves resurfacing the top layer of skin. One commonly known resurfacing procedure, microdermabrasion, uses micro-crystals to mechanically exfoliate the skin. While this method is very effective, it can also be irritating for acne-prone or sensitive skin types.

To address these concerns, HydraFacial was born, using water as the exfoliating medium. This multi-step treatment uses a patented device to cleanse, exfoliate, and extract dead skin cells while bathing the skin in serums packed with rich hydrating ingredients, antioxidants, and peptides. In addition to this, you can work with your skincare professional to further customize your HydraFacial by incorporating add-ons or boosters targeting your specific skin concerns.

Deep Cleansing is the most important phase in skin care

SKIN Turn Over cycle - 28 days

What is Carbon oxygen ?

Carbon oxygen bubble triggers a body response that sends oxygen to the treated area. At the same time it exfoliates the skin and creates an optimal environment for infusion of essential nutrients both during and after treatment. The ability to layer Radio Frequency induces collagen and elastin regeneration in the dermis layer, which leads to smoother and tighter skin and a reduction in fine lines and wrinkles.

The carbon oxygen bubble treatment begins with applying nutrient-rich gel to the skin. The gel is full of highly effective, active ingredients, such as Hyaluronic acid, Retinol and other high-quality vitamins and minerals. The gel comes in pre-portioned, sealed packets - simply open and apply, no preparation or portioning required. In addition, a hygienically sealed and disposable single-use-capsule, is used for each treatment.

Functions

- 1, Dead Skin Exfoliator removal, Skin Impurities Removal, and skin Cleaning,
- 2, skin rejuvenation, improve skin dull, dark yellow, improve skin quality.
- 3, deep cleansing of the skin, while hydrating the skin, nourishment.
- 4, removing blackheads, improve skin relaxation, reduce pores, increase skin transparency.
- 5, Facial RF Probe: Face lifting, skin lifting around eyes, Wrinkle removal and skin rejuvenation;
- 6, Cooling Freeze Probe: Face Tightening, make the sensitive skin a ice cool feeling, remove the red spots;
- 7, O2 Spray keep the facial moisture, Oxygen Jet to make Skin Refresh and Skin Rejuvenation
- 8, hemorrhoids, seborrheic alopecia, folliculitis, clearing, clearing allergens of skin.

Skin peeling:

Deep skin clean, Removing Dead Skin Cell Detox
Pore Tightening, Sebum Control, Blackhead & Whitehead
Removal Acne Care.

Ultrasound:

Melts fat and cellulitis cell, maintain skin texture smooth
Massage effect: helps to produce collagen and elastin,
activates the fibroblast and enhances skin elasticity.

Multipolar RF:

Collagen remodeling and improve skin elasticity
Dissolves fat & cellulite cell, promotes the blood circulation
and lymphatic system Safe and painless, with immediate effect

Iontophoresis:

Stimulates skin tissue, hair roots
Stimulating skin tissue and muscles to gives skin elasticity and anti-aging
Can match with functional mask pack to provide nutrients, promote cellular activity
and effects on skin regeneration, skin lightening, wrinkles and trouble skin

BOHR handle:

BOHR handle Face firming,improve and prevent skin aging, narrow coarse pores, whitening skin, release oxygen to skin .

Cool and heat handle:

Cool and heat system to contract pores and expand pores for helping solution absorption.

Oxygen spraying handle:

Oxygen spraying system for skin cleaning and solution injecting.

Advantages

1. Powerful additional functions, with detoxification suction pen, BIO face lift wrinkle, effect more secure.
2. High-tech treatment techniques, the operation is more accurate, simple, water and oxygen can be fully integrated.
3. Water, oxygen pressure regulating different parts of the treatment, the skin of different ages.
4. Repetitive stimulation of oxygen and water to avoid skin edema
5. Super-cooling device, more stable performance, higher safety factor
6. With quick plug-in connectors, connection is more convenient, simple

Deep cleansing & heath whitening

Leading-in nutrition and activating skin

Tornado tip	Large, Small
Vacuum range	Max 680 mmHg
Radio frequency	1Mhz, Multi polar(6Pol)
Lon lifting	500Hz (Digital Lon Lifting)
Ultrasound	1Mhz / 2W/cm2
User interface	10inch Color Touch LCD
Input voltage	100~120V, 50/60HZ / 220~240V, 50/60HZ
Noise level	45Db
