

CUSTOMIZED PRICING IS THE MOST REASONABLE

Let's explore and shape a more promising pricing strategy together, based on the pulse of the market.

Mastery of the supply chain system

We choose the best quality materials to make the best products.  
Supply chain stability to meet your needs no matter what quantity.

Comprehensive understanding of the laser market

Pioneering innovation for more than twenty years, we illuminate the path  
to cutting-edge advancements in medical laser solutions.

We are the true original manufacturer

We have comprehensive production control and cutting-edge R&D  
capabilities, long-term effective after-sales service. We also offer OEM  
customization services.

PROVIDE TRAINING COURSES AND SUPPORT

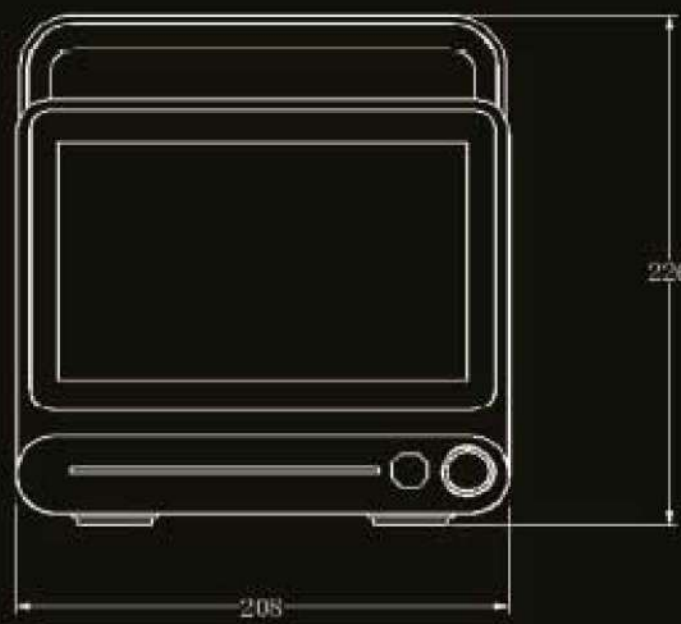

We will be part of your training and marketing events. With or without Pioon brand, the Support/ Sponsor policy will be appealing.

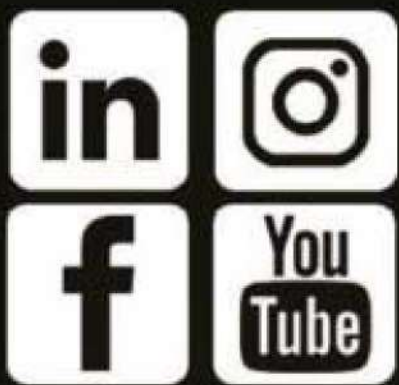

TECHNICAL SPECIFICATIONS

Wavelength	1470nm+980nm
Max Power	15W+30W
Aiming Beam	650nm < 2mW
Display/Control	8-inch HD vivid Touch-Screen
Operating Modes	Continuous Wave(CW)/Pulsed/Single Pulse
Pulse width	10-25000ms
Cooling System	Air Cooling+TEC
Weight	3.5KG
Dimensions	208mm*136mm*208mm

In compliance with:  
IEC 60601-1:2020  
IEC 60601-1-2:2020  
IEC 60601-2-22:2019  
IEC 60825-1:2014

as this is our greatest homage to you in 2024

FULL RANGE OF MAINSTREAM WAVELENGTHS

APPLICATIONS	WAVELENGTH CONFIGURATION				
	650nm	980nm	1470nm	1940nm	Recommended Configuration
Hemorrhoids		✓✓✓	✓✓✓✓		1470nm/ 980nm
Fistula		✓	✓✓✓✓		1470nm
Surgery	✓	✓✓✓	✓✓✓✓	✓✓	1470nm+980nm+650nm 1940nm
Varicose Veins		✓✓	✓✓✓	✓✓✓✓	1470nm+980nm 1940nm
Pain Management	✓✓✓	✓✓✓✓	✓✓		1470nm+980nm+650nm 980nm
Gynecology		✓✓✓			980nm
PLDD		✓✓✓✓	✓✓✓✓		980nm+1470nm

\*Surgery includes Phlebology, Proctology, PLDD, Gynecology, ENT, Nail Fungus, Liposuction and so on.(comprehensive parameters)

MAKE STABILITY VISIBLE

When choosing a medical laser, don't just focus on weight, appearance, or embellished specifications, but rather on its long-term stability.

Ensure Stability in 3 Aspects

• Built-in TEC and double fan cooling system

• External air inlet and outlet

• Longest warranty service policy in the industry

VERSATILE LASER TREATMENT

(Training Available)

Phlebology

The triple wavelength stands out as the optimal choice for performing Endovenous Laser Treatment (EVLT) on diseased veins. The 1470nm wavelength has a **unique affinity** for water within the tissue, meanwhile 980nm enhances **hemostasis efficiency**, resulting in the highly localized generation of heat. The 650nm wavelength serves to precisely guide the laser's position, ensuring **accurate irradiation** of the targeted vein during treatment. Patients can benefit from a more controlled and efficient procedure, minimizing the risk of damage to surrounding tissues.

Facelift

A world-trending non-surgical aesthetic procedure that harnesses laser technology to **reduce fat** and **stimulate collagen** production in the forehead, eyes, face and neck. This innovative technique effectively minimizes the signs of aging, providing skin tightening and lifting effects. **Now training can be provided.**

Orthopedics (PLDD)

**Minimally invasive** procedure that uses laser technology to treat back and neck pain caused by herniated discs. Now by using 650nm, 980nm and 1470nm lasers simultaneously, doctors treat intervertebral disc issues, whether surface or in the deeper tissues. This helps to **better target** the problematic area, **alleviate** broader intervertebral disc pressure, and improve pain symptoms.

Now with power detection sensor, doctors can achieve truly precise surgical procedures, minimizing surgical risks and reducing postoperative reactions to the greatest extent.

MORE APPLICATIONS

- Facial Redness (Telangiectasia)
  - Proctology
  - Podiatry
- Lipolysis
  - Gynaecology
  - ENT Precision Microsurgery

ACCESSORIES

Global collaboration, Compliant with CE/FDA Certification.  
We can assist in finding the latest manufacturers for your needs

Lipo Handpiece Pro  
Length: 100mm,150mm,200mm,  
250mm,300mm

Zooming Handpiece  
(450nm)

Proctology Handpiece

Gynecology Handpiece

ENT Handpiece

Bare Fiber

Laserlift Handpiece

Focusing Handpiece

Radial Fiber

Conical Fiber

Safety Goggles

Fiber Stripper & Cutter
